ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1850

Messrs. GINGREY of Georgia, POE of Texas, and HALL of Texas changed their vote from “yea” to “nay.”

So (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Ms. LEE of California. Mr. Speaker, today I missed rollcall vote No. 376 on H. Con. Res. 288, rollcall vote No. 377 on H. Res. 546, and rollcall vote No. 378 on H. Res. 1407. Had I been present, I would have voted “aye” on each of these rollcall votes.

A TRIBUTE TO MONSIGNOR LOUIS ANTONELLI

(Mr. SABLON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SABLON. Mr. Speaker, God's blessings come to us in many forms. One of the ways the people of Rota in the Northern Mariana Islands have been most blessed by God is through His minister, the Reverend Monsignor Louis Antonelli. In September, Pale Antonelli will celebrate his 92nd birthday. For 37 of those years, he has served on the island of Rota, first as pastor of San Francisco De Borja Church in Songsong Village, then as pastor of San Isidro Church in Sinapalu.

Throughout these years, Monsignor Antonelli has presided over countless masses, baptisms, catechism classes, counseling sessions, weddings, and funerals. He has ministered to hospital patients, prison inmates, the sick, and the elderly. But in addition to being a man of the spirit, the beloved Pale Antonelli is a man of the Earth. His herd of cattle, about 100 head, and the grazing lands he has cultivated for

them are widely recognized among Rota's finest, a product of nurture and careful breeding.

It is a long way from Sheppton, Pennsylvania, where Pale Antonelli was born, to the island of Rota. God's ways are unfathomable. But we are all grateful that God's ways brought Pale Antonelli to the Northern Mariana Islands.

RESPONSIBILITY FOR A BUDGET

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, Majority Leader HOYER says, “It isn't possible to debate and pass a realistic, long-term budget until we've considered the bipartisan commission's deficit-reduction plan, which is expected in December.”

Well, that means the Democrats do not plan to have a budget for this cycle. Is it any wonder the White House budget director, Peter Orszag, plans to resign next month? If the hard work of budgeting can be ignored by the majority in Congress when we're facing trillions of dollars in debt, then why worry about a budget at all? I guess there's no reason to propose a White House budget either. So Mr. Orszag must not feel needed at the moment.

It has always been clear to me that the power of the purse resided in Congress, not in a deficit-reduction commission. We all look forward to the ideas that may come from the commission. They may be inspired and the answer to our prayers, but the commission is not a reason for abdicating our current responsibility to the people of this Nation to start work now when reducing our debt.

STANWOOD BOOMWORKS AND ABS MATERIALS

(Mr. BOCCIERI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BOCCIERI. Today, I rise to acknowledge two businesses in my Ohio district helping to combat the BP oil disaster in the gulf and creating jobs. Stanwood Boomworks in Massillon, Ohio, is one of 10 companies in the country producing oil booms designed to help contain spilled oil. Over the past few weeks, Boomworks has hired 80 new local workers and is producing 250 booms a day. Boomworks supplied more than 1,000 oil booms for Gulf Coast workers already, and I want to honor their hard work today.

Another local company, ABS Materials in Wooster, Ohio, is taking advantage of National Science Foundation grants to create jobs at home and provide solutions for the Gulf Coast oil spill. An NSF grant helped fund research leading to the formation of ABS Materials in 2009. As a result of that
